

TeST

TeST is a learning management resource that provides our policyholders with online safety training that is OSHA and DOT compliant. TeST is powered by OTIS Learning Management system.

TeST makes delivering safety training convenient and easy via a web based program that can be accessed in a comfortable learning environment. The result is training and education that is efficient, cost effective, and accessible to all via the web at;

A service of the Tokio Marine Loss Control Department.

Protecting our Global Community of Customers.

TeST

At Tokio Marine America our goal is to help our clients and their employees remain safe at all times. We strive to provide our clients with alternatives to traditional training through our self-paced on line training resource.

TeST helps administer safety training programs through an user friendly platform that brings increased flexibility and more course delivery options for you and your employees. TeST helps ensure your safety training is both effective and compliant.

INTERACTIVE COURSES

- Video Animation
- Effective Safety Training
- Use with your mobile device
- OSHA Compliant
- Choose from 100 titles

STUDENTS

- Allows quick and easy access to assigned training content.
- Student Dashboards keeps employees informed about scheduled courses, as well as past due and future tasks.
- Up to date technology allows use of variety of applications and mobile devices.

The image shows two screenshots from the TeST platform. The top screenshot is a dashboard for a user named 'Gertrude Sammons' with various navigation options like 'Dashboard', 'Tasks & Notices', and 'Course Library'. The bottom screenshot shows a course titled 'WHAT IS AN ACCIDENT INVESTIGATION?' with a magnifying glass icon over a ladder. Below this is a table for the 'Accident Investigation' course.

Status	Lesson #	Lesson	Score	Total Time	Failures
Not Started	1	What is an Accident Investigation?			
Not Started	2	Gathering Information			
Not Started	3	Conducting Interviews			
Not Started	4	Analyzing & Corrective Actions			

TRAINING ADMINISTRATION

- Dashboard helps manage online training.
- Build training requirements based in job descriptions.
- Track training progress, course scores, number of attempts, time to complete, and more.
- Generate reports to Excel, PDF, etc.
