Tokio Marine America is dedicated to helping our clients and their employees remain safe at all times. We strive to provide our clients with alternatives to traditional training through our self-paced online training resource. TeST helps administer safety training through an easy to use technology platform that brings increased flexibility and more course delivery options for you and your employees. TeST helps ensure your safety training is both effective and compliant.

- Administrator dashboard makes it easy to manage online training curriculums.
- Flexible administration lets you add employees, track training progress, course scores, number of attempts, time to complete, and more.
- Generate reports to Excel, PDF, etc., and have them automatically emailed to you.
- Student Portal allows employees quick and easy access to all of their assigned training content.
- Student Dashboards keeps employees informed about scheduled courses, as well as past due and future tasks.
- **Up to date technology allows you to use a variety of internet surfers and mobile devices.**

## Interactive Courses

Courses include many features that offers an engaging student and learning experience for each of your employees.

- Courses designed to be engaging with video animation, and trainee interactions.
- Build your own training plans for students and organize training for each individual student.
- More than 100 course titles from categories such as Safety, Health and Environmental, Driver Training, Fire Safety, Construction Safety, and more with up to 50 titles in Spanish.
- OSHA 10/30 Hour courses available at discounted rates. (Contact Tokio Marine Loss Control for information for per seat rates.)
